## GROUND TRANSPORTATION PROGRAM

Welcome to the unique convenience of **CAPITOL AIR**'s Ground Transportation Program. This program provides you—the traveler—with the best options for a hassle free experience at low cost.

Our program is easy to use. Simply request one of the Ground Transportation service available to you. When you arrive at STP/Downtown Airport, your transportation arrangements will have been completed. Just select the service you desire prior to boarding or do so in-flight. Your instructions are forwarded to the Ground Transportation Team in St. Paul. You're 'ready-to-go' on arrival.

Several payment or billing options are offered to individuals or corporations. All major credit cards and personal checks are accepted.

## EXPRESS DESTINATION

This service will express you to your local destination in the Twin Cities area. You will be transported in a Town Car Sedan by professional drivers who are uniformed and place an emphasis on safety.

This is a superior choice to the typical taxi experience. And the Sedan rates are tailored to the same cost conscious prices of the **CAPITOL AIR** air service. Cellular phone service is also available at a very reasonable rate.

## SHARED RIDE

This service offers you and no more than two others an opportunity to share-a-ride to the same general location in the Twin Cities. Similar to a shuttle service, it is, however, non-scheduled and notably different from the usual "bulk delivery" shuttle systems. Town Car Sedans are also used for this service with the same staff of drivers taking you to your destination.

We plan the route to your destination in advance of your arrival. You are promptly, comfortably and inexpensively delivered to your selected location.

## CAR RENTAL

The **CAPITOL AIR** car rental options include Compacts, Mid-Size, Full-Size and Mini-Vans; Enterprise or Thrifty. Simply make your choice known. The vehicle will be at the terminal on your arrival. Warm in the winter. Cool in the summer.
